

OKLAHOMA SCHOOL of  
SCIENCE and MATHEMATICS  
FOUNDATION

# 2019-20 ANNUAL REPORT

1141 N LINCOLN BLVD  
OKLAHOMA CITY, OK, 73104

# OSSM MISSION

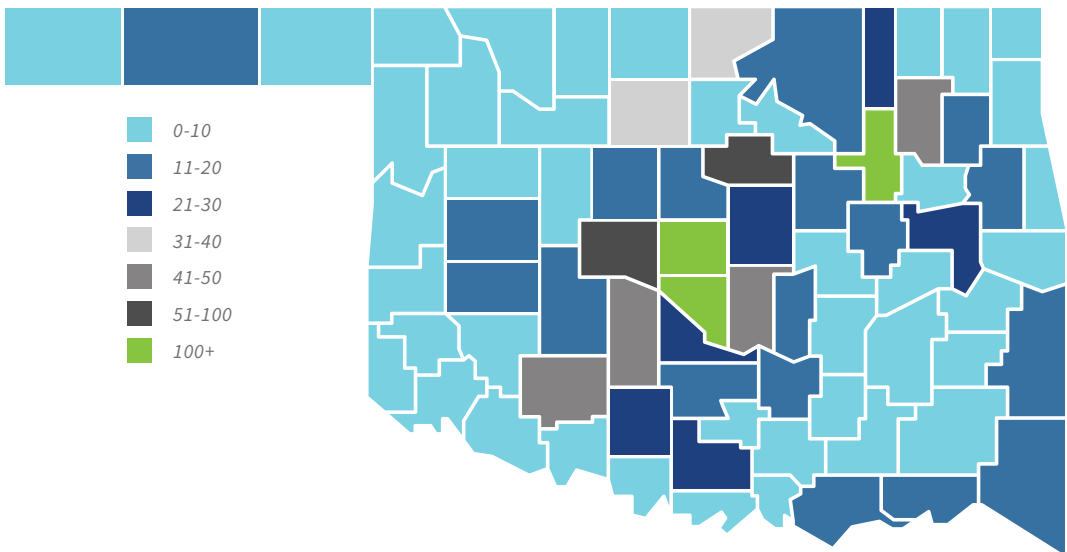

The mission of the Oklahoma School of Science and Mathematics is to:

- **Educate students** who show promise of exceptional academic development through a program of instruction and discovery that challenges them far beyond the traditional high school model, imparting a superior foundation for careers in science, technology, engineering, and mathematics fields
- Serve as a **catalyst for advancing public school STEM education in Oklahoma** by providing residential, regional, summer, and virtual learning programs that extend advanced science and math education to a diverse student demographic
- **Inspire students to make a difference** in the State of Oklahoma and the world by leveraging their knowledge and curiosity for the betterment of mankind

## OSSM FOUNDATION MISSION

The mission of the OSSM Foundation is to foster excellence in K-12 science and mathematics education throughout Oklahoma by supporting the Oklahoma School of Science and Mathematics’ outreach projects, programs, development, students, staff, and faculty.

## OSSM ALUMNI (RESIDENTIAL) BY COUNTY (1992-2020)

## MESSAGE FROM THE PRESIDENT

Dear Friends of OSSM:

Thank you for your much-needed support of the Oklahoma School of Science and Mathematics. Without the partnership of individual donors, businesses, and private foundations, OSSM could not be the world class institution that it is, providing transformative academic challenge in STEM to students across Oklahoma.

After a successful fall 2019 semester and strong start in January, COVID-19 struck during Spring Break, forcing us online with classes for the remainder of the spring semester. Our superb faculty responded with lightning speed to take our curriculum online and help students adjust to working from their homes across the state instead of the intensive, highly supportive environment of our main residential campus. It has been and continues to be a very challenging time.

To our knowledge, OSSM was the only Oklahoma school that did not close at all, and our faculty have gone to lengths to maintain the greatest degree of academic rigor and individual support possible online. Our seniors, along with all their peers across the country, were denied Commencement at the end of May; however, we were able to coordinate a safe, socially distanced ceremony for them in late July and send them on their way, with our very best wishes, to their next adventures in higher education.

With 100% of our focus going toward teaching at the highest level possible online, all our summer programs had to be cancelled this year. In an abundance of caution, we began the fall 2020 semester online and, as of this writing, we are still teaching online. We continue to consult with state health officials and have a plan in place to bring students back in person at the earliest date we can safely do so. We are also working on necessary upgrades to the HVAC system in our residence hall and academic buildings to improve air circulation for health and safety as students return to campus.

We are grateful for your continued support of and engagement with OSSM.

Sincerely,

**FRANK WANG, PH.D.**

*President, OSSM*

## MESSAGE FROM THE CHAIRMAN

In spite of a very difficult spring dealing with COVID-19, OSSM students still achieved great things academically this past year, developing skills, adaptive abilities, and resilience they did not know they possessed. The Class of 2020 included 22 National Merit Semi-finalists and increased its average ACT composite from 29 to 33 while attending OSSM. OSSM students and alums continue to be successful in their endeavors because of the competitive quality of their academic education.

OSSM remains a shining star for Oklahoma, ranking among the top, most rigorous high schools in the nation each year and named the 2020 #1 Best High School in Oklahoma by niche.com. The Class of 2021, now seniors, is the largest class in OSSM history!

Another special “milestone” event took place this year. We are thrilled to congratulate an OSSM alumnus and long-time faculty member, Dr. Brent Richards, as he takes on the role of academic leadership as OSSM’s Vice President of Academics with the fall 2020 semester.

During this very difficult time, we hope you are finding your needs met. If you are able to help, we need you more than ever. Our greatest current needs are for faculty support, equipment, and making infrastructure and other adjustments to deal with COVID-19 and maximize student health and safety.

In addition to asking for your financial support, we also encourage you to get involved. OSSM has many volunteer opportunities available and fantastic events to attend—you will not want to miss OSSM’s 30th Anniversary Quantum Experience in fall 2021! We hope you choose to invest with us today. To paraphrase Ben Franklin, “an investment in our children’s education pays the best interest.”

All the best,

**SARA BROWN**

*Chairman, OSSM Foundation*

**To help transform student lives through advanced academics, consider making a donation today at:**

**[www.ossmfoundation.org/ways-to-give](http://www.ossmfoundation.org/ways-to-give)**

# RESIDENTIAL

## Immersion model supports students' academics

OSSM is a state funded, two-year **residential high school** for Oklahoma juniors and seniors with ability and interest in science and math. Nationally recognized as a top performing high school, OSSM challenges students *far* beyond the traditional high school model. Everything at OSSM supports students' academics—from the school's residential immersion model, college-level curriculum, and largely doctoral-level teaching faculty (91%) to required evening study halls staffed with faculty, peer support, and limited cell phones and personal internet. Students leap forward in their academic progress, with many OSSM graduates receiving numerous credits for their OSSM classes at their chosen institutions of higher learning.

*In March, OSSM students went home for Spring Break and finished out the spring semester online due to COVID-19.*

# STATEWIDE

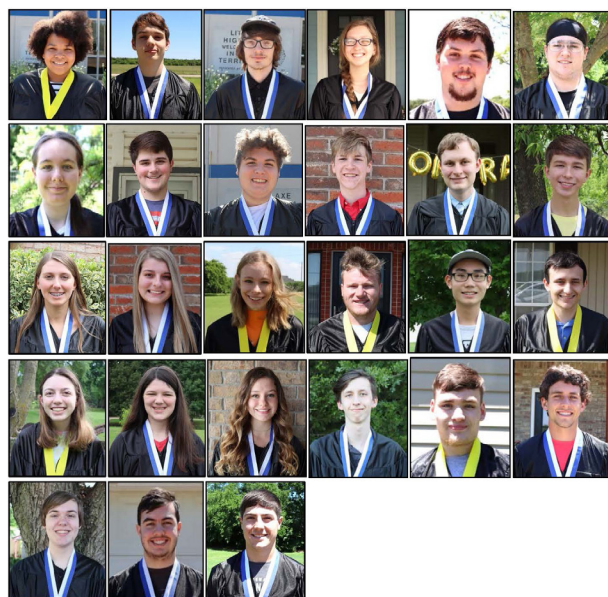

## Bringing advanced education to students across Oklahoma

OSSM also operates seven **Regional Centers** in rural areas across the state located in partnering Career Techs, providing students with calculus, calculus-based physics, and other advanced courses near their homes.

OSSM operates rural Regional Center programs in Drumright, Enid, Muskogee, Okmulgee, Poteau, Tahlequah/Stilwell, and Wayne.

OSSM's **Virtual Regional Center** program works with students and school districts across the state to allow students anywhere in Oklahoma to receive daily interactive instruction online in calculus, calculus-based physics, and other courses AND to receive full face-to-face labs brought to them regularly by our accomplished OSSM instructor. We want to partner and collaborate with more school districts to increase the scope of STEM curriculum they can offer their students!

- Join Altus, Coweta, Elk City, Norman, Plainview, and Poteau Public Schools!

*Class of 2020 Regional Center students finished their senior year online. Wayne Regional Center instructor Tony Cornforth brought a "front porch" graduation to his students from 18 feeder schools—Blanchard, Bridge Creek, Dibble, Elmore City-Pernell, Lexington, Lindsay, Little Axe, Maysville, Newcastle, Noble, Paoli, Pauls Valley, Purcell, Stratford, Wanette, Washington, Wayne, and Wynnewood.*

See more about OSSM academics, faculty, and programs at

[WWW.OSSM.EDU](http://WWW.OSSM.EDU)

Follow us on Facebook at OSSM Edu

## SUMMER PROGRAMS

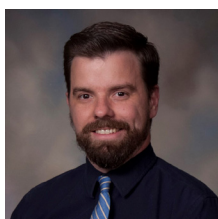

OSSM typically engages students statewide through **summer program** offerings: Middle School Math & Science Workshops (sponsored), Middle School Math & Science Teachers' Institutes (sponsored), and the OSSM Summer Academies: two separate week-long STEM camps for high school students (fee-based).

Though OSSM was unable to provide regular summer program opportunities this year due to COVID-19, we are grateful to sponsors **Marathon Oil** and **Phillips 66** who allowed support to be redirected to assist with virtual learning and end-of-summer ramp-up camps for students.

## Dr. Brent Richards named Vice President of Academic Services

OSSM Alumnus now leading Faculty at State's leading STEM school

On August 1, 2020, Brent Richards, Ph.D. began his tenure as the new Vice President of Academic Services of the Oklahoma School of Science and Mathematics! Dr. Richards is responsible for overseeing implementation of OSSM's rigorous, college-level curriculum in partnership with the school's highly accomplished, largely doctoral-level (91%) teaching faculty.

A member of OSSM's Class of 1996, Dr. Richards started work at OSSM in 2008 as a professor of biology. In addition to teaching, he has served in many other roles, including directing the Student Mentorship program, a hallmark of OSSM academics and a form of learning that integrates hands-on, mentored, professional work experience outside of the classroom. Through partnerships with more than 60 academic institutions, businesses, nonprofit organizations, and government agencies in the Oklahoma City area, OSSM students participate in independent research or other projects in their field of interest under the direction of an experienced professional. More than

500 students have completed mentorship projects since 1992. Dr. Richards earned his B.S. in Biochemistry from the University of Oklahoma in 2000 and his Ph.D. in Neuroscience from Georgetown University in 2006. From 2006-2008, Dr. Richards served as a postdoctoral fellow at the National Institute of Mental Health.

"The Academic Committee of the Board of Trustees and the full Executive Committee of the Board of Trustees and I unanimously selected Dr. Brent Richards as the next Vice President of Academic Services," said Frank Wang, president of OSSM. "Dr. Richards is a true professional who looks for ways he can be helpful and supportive of others. I personally look forward to working closely with him as VP Academic Services."

"I am honored and grateful for this opportunity to serve OSSM in this role," said Dr. Richards. "The school has been a part of my life for more than 20 years, and in all of the places that I have worked or studied I have never felt a greater sense of belonging or purpose."

**"OSSM is an amazing institution with unmatched academics as well as faculty and staff that only want the very best for each and every student. OSSM has pushed me to do my best both in academics and in my everyday endeavors. The relationships I have made here are definitely going to last my whole life and I couldn't be more grateful for the experience of attending this amazing school."**

*Jess M., Class of 2020 (Bishop McGuinness H.S., Jones)*

**OSSM graduates are doing outstanding work and making a positive difference all over Oklahoma as well as across the nation and around the world! There are so many “awesome” stories. Here are just a few!**

### **Finding a Cure for COVID-19**

**RHIJU DAS, PH.D. | OSSM CLASS OF 1995** (*Bartlesville HS*)

*Associate Professor of Biochemistry, Stanford University School of Medicine*

*A.B., s.c.l., Harvard University, Physics (1998)*

*M.Phil., Cambridge University, Physics (Radio Astronomy) (1999)*

*M.Res., University College London, Biocomplexity (2000)*

*Ph.D., Stanford University, Physics (2005)*

This past summer, Dr. Das was highlighted by PBS on NOVA for the work he is doing to find a vaccine for COVID-19. Though his training was in physics, he has been doing very impressive work for years and now leads a bioscience lab at Stanford. Das gave a fascinating keynote at OSSM Commencement a few years ago on his work to “democratize” science, opening up scientific study to include experience of non-scientists to help arrive at answers more quickly.

After training in particle physics and cosmology at Harvard, Cambridge, University College London, and Stanford, Dr. Das did postdoctoral research in computational protein folding at the University of Washington. On returning to Stanford, Dr. Das set up his lab to focus on computer modeling and design of RNA molecules, which underlie some of the most important molecular machines in biology and medicine. As a core part of this research, Dr. Das leads Eterna, an open science platform that crowdsources intractable RNA design problems to 250,000 players of an online videogame and provides scoring feedback based on actual wet-lab experiments.

---

**“[OSSM is] really the most rigorous scientific program that I’m aware of at the high school level. I knew what DNA, RNA and viruses were when I was a junior in high school. That was pretty eye opening.”**

---

*Dr. Rhiju Das*

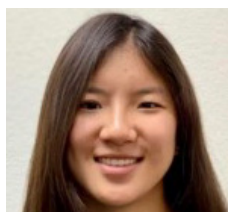

Dr. Das’s research has been recognized by the Burroughs-Wellcome Career Award at the Interface of Science, the OpenEye/American Chemical Society Outstanding Junior Faculty Award, and the Stanford Medicine Endowed Faculty Scholar award.

In response to the COVID-19 pandemic, Dr. Das and Eterna have launched the OpenVaccine challenge to develop refrigerator-stable mRNA vaccines needed for world-wide immunization.

To view the NOVA program and more about his work, go to [www.ossmfoundation.org](http://www.ossmfoundation.org) and scroll down to the article about Dr. Rhiju Das.

See more about OSSM academics,  
faculty, and programs at

[WWW.OSSM.EDU](http://WWW.OSSM.EDU)

---

**“OSSM is a place where I can surround myself with hardworking people who can help me become the best version of myself possible.**

**This school is the first step in becoming everything I want to be while I create lifelong relationships with the students and faculty.”**

---

*Genevieve D., Class of 2022 (Sulphur H.S.)*

## Commitment to the Community

**NATASHA BRAY, D.O. | OSSM CLASS OF 1995** (*Chisholm HS*)

*Associate Dean for Academic Affairs and Accreditation, Oklahoma State University College of Osteopathic Medicine at the Cherokee Nation*

*Internal Medicine Associate Program Director, Tahlequah Medical Group*

*B.S. Biological Science, University of Tulsa, 1999*

*M.Ed. Medical Education, Nova Southeastern University, 2013*

*D.O. Doctor of Osteopathic Medicine, Oklahoma State University College of Osteopathic Medicine, 2003*

Natasha Bray, D.O., MEd, FACO, FACP is certified in internal medicine and addiction. After medical school, she completed her internship as Chief Intern Physician at the Philadelphia College of Osteopathic Medicine and completed her residency at Cambridge Health Alliance/Harvard Affiliated Hospital. Prior to joining OSU-Cherokee Health Service, Dr. Bray served as the Associate Dean of Clinical Medicine at the Arkansas College of Osteopathic Medicine (ARCOM) in Fort Smith, AR and VP of Academic Affairs/Designated Institutional Official for Broward Health in Fort Lauderdale, FL.

Dr. Bray has extensive experience in the development, accreditation, and delivery of programs at both the undergraduate and graduate levels of medical education. Her current work at OSU for the last four years has focused on establishment (accreditation, curriculum development, hiring, construction, etc.) of the OSU-COM campus in Tahlequah, the nation's first tribally affiliated college of medicine, in partnership with the Cherokee Nation. OSU-COMCN opened in August with an entering class of 54 first year medical students.

---

**“My husband and I were both in the Class of 1995... OSSM was a great learning venture for both of us. It was hard, we grew up, we struggled, we learned how to fail and, probably most importantly, learned how to learn, which allowed us to be successful.”**

*Dr. Natasha Bray*

---

“Most of my work centers around using medical education as a venue to address the healthcare disparities that we see in rural and underserved communities. Limitation in access to physicians where large numbers of people live and work, impacts their ability to live healthy lives. Training physicians in rural or underserved communities during their medical school and residency training increases the likelihood that those physicians will stay in the community to practice.”

## Wrangling “Big Data”

**SARAH ANOKE, PH.D. | OSSM CLASS OF 2005** (*Booker T. Washington HS, Tulsa*)

*Staff User Researcher, Twitter*

*A.B. Chemistry, Harvard, 2009*

*Post-Bacalaureate Certificate, Mathematics and Statistics, Smith College, 2012*

*A.M. Biostatistics, Harvard, 2014*

*Ph.D. Biostatistics, Harvard, 2017*

Sarah recently moved back to her hometown of Tulsa to work remotely for Twitter as a Staff User Researcher. For nearly seven years she worked on multiple data research projects during her Biostatistics postdoctoral fellowship at the Harvard Chan School of Public Health. Sarah never saw herself in the tech industry but was interested in the challenges associated with analyzing datasets hundreds of times bigger than what she encountered in public health. She made an abrupt pivot when she was recruited from that fellowship to work in California as a Senior Data Scientist with Netflix and then as a Data Engineering Fellow at Insight Data Science.

“In public health, we start with a hypothesis first then actively collect data specific to our research question, to support or disprove the hypothesis. In tech, any and all data is collected, and people basically hunt for learnings. I think this is the direction the world is moving in.”

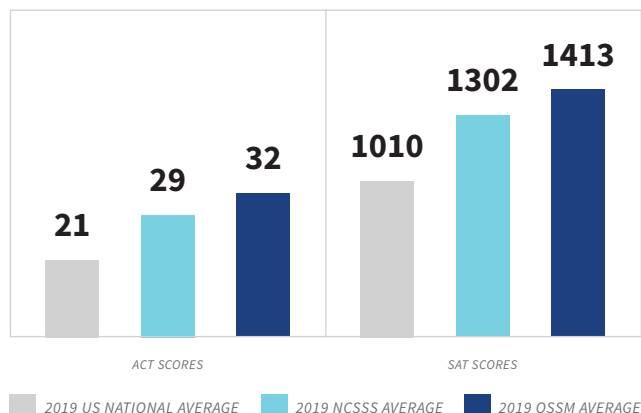

Sarah is now working with Twitter on projects to improve the global discussion experience. “Long term,” she says, “I want to take my experiences from tech and apply them in some public service role, from within the state or federal government, or as a professor.”

# OSSM BY THE NUMBERS

## PROVEN RESULTS

OSSM students leap forward in their academic progress, and graduates often receive numerous credits for their OSSM classes at chosen institutions of higher learning.

OSSM students consistently test higher than the national average in ACT & SAT scores and are also outperforming other National Consortium of Specialized STEM Schools (NCSSS) averages.

Each year OSSM students earn regional, national, and international recognition for their academic endeavors. OSSM's Class of 2020 included:

- Increased Class average ACT Composite from **29** to **33**
- **22** National Merit Scholar Finalists
- Some **\$8.9 million** offered in merit-based scholarships
- **2** QuestBridge Scholars
- **2** Academic All-State honorees
- **1** Top 20 & **1** High Honors in U.S. Chemistry Olympiad

**"I enjoy being at OSSM because of our amazing faculty! They always go above and beyond to make sure we have everything we need to succeed!"**

*Jeswin T., Class of 2021 (Yukon H.S.)*

## OTHER 2019/2020 ACHIEVEMENTS:

- **First Place** in the Oklahoma Brain Bee competition
- **3** teams competed in the National Science Bowl
- **6** top performers in the Oklahoma Math League (OKML) State Champions
- **10** top scorers in the Continental Mathematics League (CML) National Champions
- **7** students published in American Chemistry Society Book of Abstracts

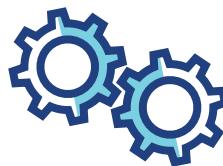

## FURTHER EDUCATION

Of OSSM's 1,791 graduates through 2020, approximately half are still pursuing higher education, **more than half attended college in Oklahoma**, and some **60% are living and working in Oklahoma**. Of those now in the workforce, more than a third are practicing engineers, another third are in medicine and bioscience, and the rest are in computer science & MIS, economics & finance, applied & computational math, chemistry & physics, research, business, law and more.

**\$40 MILLION**

*in economic activity is generated for Oklahoma by OSSM and its alums annually, according to a recent independent study.*

**85%**

*are staying in STEM related fields for their careers!*

**“Being at OSSM has challenged me more than I could have imagined. I have really learned about the academic world through various assignments and opportunities; I feel very prepared for college. Anyone considering OSSM should know that, though challenging, OSSM has an amazing support system. OSSM has also provided many opportunities and experiences which help students grow personally and intellectually, unique to its boarding school setting.”**

*Eve W., Class of 2021 (Thomas Jefferson IDS, Fairland)*

## OSSM CLASS OF 2020 COLLEGE MATRICULATIONS

University of Oklahoma (29)	Carnegie Mellon University (1)	Lehigh University (1)	University of Pennsylvania (1)
Oklahoma City University (1)	Columbia University (1)	Missouri Southern State University (1)	University of Portland (1)
Oklahoma State University (5)	Cornell University (1)	Princeton University (1)	University of Southern California (1)
University of Tulsa (1)	Embry-Riddle Aeronautical University (1)	Rice University (1)	University of Texas - Dallas (1)
Arizona State University - Tempe (1)	Emory University (Oxford College) (2)	Tulane University (2)	University of Washington (1)
Belmont University (1)	George Washington University (1)	University of Delaware (1)	Washington University - St. Louis (3)
Boston University (1)	Grinnell College (1)	University of Missouri - Kansas City (2)	Yale University (1)
Brandeis University (1)	Harvard College (1)	University of Notre Dame (1)	
Campbell University 1			

## COURSE OFFERINGS (OSSM RESIDENTIAL PROGRAM)

College Level courses taught by largely Ph.D. (91%) faculty. See more at <https://www.ossm.edu/academic-departments/>

### MATHEMATICS

Pre-Calculus I, II, III	Abstract Algebra
Calculus I, II	Real Analysis
Multivariate Calculus	Special Advanced Problems
Differential Equations	Geometrics
Number Theory	Topology
Probability and Statistics	Foundations of Mathematics
Linear Algebra	

### BIOLOGY

Anatomy & Physiology	Endocrinology
Biochemistry	General Zoology
Molecular & Cellular Biology	Plant and Soil Science
Embryology	Microbiology
Genetics	Intro to Neuroscience

### COMPUTER SCIENCE

Intro to Computer Science	Computer Networking
Object-Oriented Programming with Java	Computer Architecture & Assembly Programming
Data Structures I & II	Special Topics in Computer Science
Operating Systems	

### HUMANITIES

American Literature	Western Civilization	Principles of English Composition	Fine Arts
World Literature	East Asian History	Special Topics in Humanities	
American History	Arab Civilization	Foreign Languages	

### PHYSICS

General Physics	Special Topics in Theoretical Physics
Mechanics	Exploration Geosciences
Electricity and Magnetism	
Astronomy	
Intro to Modern Physics	
Modern Physics II	
Thermal Physics Waves & Optics	

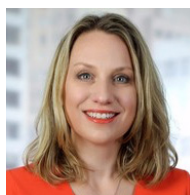

### ENGINEERING

Robotics Engineering	Complex Analysis
Electronic Circuits	Geoscience Seminar (Intro. to Petroleum Engr.)
Assembly Language	

### CHEMISTRY

General Chemistry I & II	Chemical Equilibrium
Organic Chemistry I & II	Chemistry Olympiad Prep/Directed Study
Biochemistry	

**He did it again!** Many thanks again to OSSM Class of 1997 alumnus **Dr. Bryan Eastin** for making another amazing matching gift of \$50,000 at the end of 2019! Bryan's gift matched other alums' giving to the Faculty Endowment and is, for the second time, the largest gift given thus far by an OSSM alum. We are so grateful to Bryan and to all our many alumni and alumnae giving back to OSSM to help provide more Oklahoma students each year with the transformative academics that helped them be successful. *Thank you!*

Many thanks to Class of 1995 alumna **Teresa Dietrich**, currently serving as a Trustee of the OSSM Foundation, for making an amazing matching gift of \$25,000—one of our largest alum gifts yet—in the fall of 2019!

Teresa's wonderful gift was matched (and more!) by other donors' giving to establish a new critically needed **OSSM Computer Science Endowment**. Her leadership gift and those of fellow alumni and other donors totaled nearly \$70,000 towards our \$400,000 goal! We are so grateful to Teresa and to all of you who help provide more Oklahoma students each year with the transformative academics they experience at OSSM. *Thank you!*

We are excited to welcome Class of 2006 alumna **Capt. Joy Lomheim** to the **OSSM Awesome Alumni \$10K Club** with her 2019 pledge \$10,000 over five years to the OSSM Faculty Endowment! Joy and her fellow alum Club members are committed

to ensuring OSSM will always be able to retain the superb, highly accomplished faculty who help our students develop their greatest STEM potential, in high school and beyond! *Thank you!*

---

**“A school is only as good as its teachers. OSSM’s Faculty Endowment helps to cover the gap between what Oklahoma will pay and what OSSM needs to pay to continue to have the most amazing faculty around.”**

---

*Bryan Eastin, Ph.D.*

**Inasmuch Foundation’s** staunch major support in recent years continues to help OSSM retain the

superb, accomplished faculty, across all programs, working to develop OSSM students’ STEM knowledge and skills to the greatest degree possible while in high school. *Thank you!*

---

**“Inasmuch Foundation is committed to ensuring Oklahoma students have access to the highest quality educational opportunities available. We are pleased and proud to partner with OSSM, a world class resource providing Oklahoma students interested in STEM with public access to continuously progressive academic rigor throughout high school.”**

---

*Robert J. Ross, CEO*

Many thanks to **Marathon Oil** for another year of strong support with a \$10,000 grant initially made for student

scholarships to OSSM’s week-long Summer Academies. When those camps had to be cancelled due to COVID-19, we were immensely grateful for their flexibility, allowing the grant to be diverted to other pressing STEM needs. *Thank you!*

---

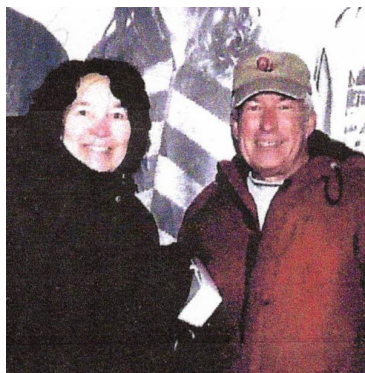

**“Marathon Oil is proud to partner with OSSM and to contribute to the critical mission of providing enhanced STEM education opportunities to students and advancing public school STEM education across the state of Oklahoma.”**

---

*Katie Altshuler, Government & Community Relations Manager*

Many thanks to our Parents for all they do to enhance and enrich all OSSM students’ experiences—we appreciate you!

## “OSSM a special place for those who yearn to learn!”

Carleen Burger was one of eight siblings growing up in Oklahoma City. “My mom and dad were emphatic that we get the best education possible,” she remembers. “My dad’s family were Cherokee. His aunts and uncles went to the Cherokee boarding schools and then on to college—quite unusual for that period in time... The education and persistence of people helped to ensure their well-being,” she says. “It was just ingrained in [my family].”

Jerry attended a small rural high school in northeastern Oklahoma. He aspired to attend college but did not feel prepared for academics or dorm life at a big school like University of Oklahoma. He remembers one of his classmates who was so smart, she helped the others with their homework. “She was so bored though,” he recalls, “and she definitely did not go

to college. We need OSSM for today’s students like her.”

Majoring in pre-med, Jerry received his B.S. degree from Northeastern State in Tahlequah in 1967 and then served in the U.S. Army as a member of the Trauma Study Team at Walter Reed Institute of Research. He was a proud member of a research unit deployed to Vietnam in 1968, where he spent a year studying trauma and helped present their findings on Wet Lung Syndrome. He returned from his service as an experienced research medical technologist and started several medical laboratories for physicians in Tulsa.

In 1974, Jerry graduated from the St. Louis University/Washington University Physician Assistant Program as class president and was a founding member of the Missouri Academy and a founding member and president of the Illinois Academy of Physician Assistants. He received his M.S. in Business and Health Administration degrees from the University of Colorado in 1987 and served as Executive Director of the University of Oklahoma Medical Alumni Association 1987-1999. While at the OU Health Sciences Center, Jerry helped establish and grow several endowments for the OUHSC Library, the College of Dentistry, and the College of Public Health.

Believers in the power of endowment to help high quality programs survive and thrive, Jerry and Carleen have helped organize and lead support for OSSM’s annual Quantum Experience gala benefiting the OSSM Faculty Endowment. Jerry has served on the OSSM Foundation board since 2005 and helped establish OSSM’s mentorship program. He serves on several other boards, as well, and is a long-time Rotary member. The Burgers are active in Rotary’s Student Exchange Program and have hosted students from all over the world.

For the Burgers, OSSM is a special place for students who yearn to learn more than is possible in their traditional high school. Three of the Burgers’ six children attended OSSM. “The school lets students soar in so many ways,” says Carleen. “Our children all had different strengths and weaknesses. The school helped them develop their potential from the start.”

CDR John Burger, M.D. (OSSM’01) now serves in the Navy as Assistant Chief Director of Medical Education at Walter Reed National Medical Center, Nancy Burger (OSSM’05) is now a senior data integration manager, and Will Burger (OSSM’10) is an accomplished engineer currently working in his dream job for the OKC Thunder.

“Jerry and I are so grateful for what OSSM has done for our children,” says Carleen. “We want to help ensure others get to have the same experience and to see more students filling the new dorm space. Waiting lists every year make us sad.”

Young people with strong STEM skills are badly needed for Oklahoma’s changing workforce and that of our nation and the world. The Burgers point to what OSSM alums are doing after graduation as a strong answer to that. “All the patents, business startups, innovations, etc. achieved by OSSM grads is jaw dropping. The 29-year history of the school proves it has been a good investment!”

**ONE Gas Foundation, Inc.’s**  
gracious 2019 pledge of \$22,000  
for scientific equipment is

helping make it possible for OSSM to replace a critical instrument important in analyzing substances in OSSM’s advanced, college-level Chemistry classes. *Thank you!*

**“We are pleased and proud to help ensure OSSM students for years to come receive the world class STEM education that will help develop their skills and ability to solve big problems and help move Oklahoma and the world forward into the future.”**

*Lynda Mobley, ONE Gas Foundation Partner for Corporate Giving*
