

OKLAHOMA SCHOOL of  
SCIENCE and MATHEMATICS  
FOUNDATION

# 2022-23 ANNUAL REPORT

SCHOOL YEAR (8/1/2022-7/31/2023)

1141 N LINCOLN BLVD  
OKLAHOMA CITY, OK, 73104

## OSSM MISSION

The mission of the Oklahoma School of Science and Mathematics is to:

- **Educate students** who show promise of exceptional academic development through a program of instruction and discovery that challenges them far beyond the traditional high school model, imparting a superior foundation for careers in science, technology, engineering, and mathematics fields
- **Serve as a catalyst for advancing public school STEM education in Oklahoma** by providing residential, regional, summer, and virtual learning programs that extend advanced science and math education to a diverse student demographic
- **Inspire students to make a difference** in the State of Oklahoma and the world by leveraging their knowledge and curiosity for the betterment of mankind

The mission of the OSSM Foundation is to foster excellence in K-12 science and mathematics education throughout Oklahoma by supporting the Oklahoma School of Science and Mathematics' outreach projects, programs, development, students, faculty, and staff.

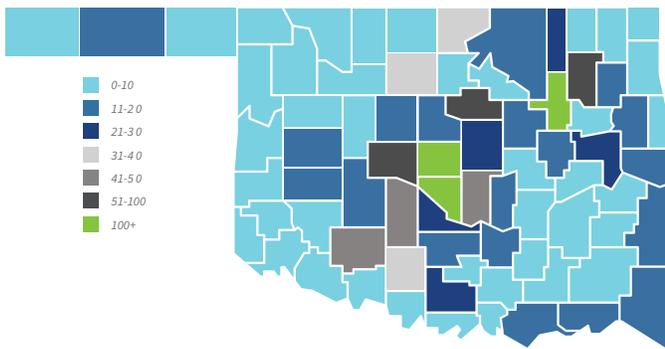

## OSSM PRESIDENTIAL BATON PASSES

The OSSM Community would like to express deepest gratitude to **Dr. Edna McDuffie Manning**, the school's Founding President Emerita, and to **Dr. Kenneth Lease**, long-time Vice President of Academics, who both came out of retirement to lead OSSM during the 2022-2023 school year while a national search continued for the school's third president. The tremendous debt of gratitude we owe Drs. Manning and Lease continued to grow during this last "interim" year. No one could have stepped in who knew OSSM more deeply and could have led so well from day one. Many grateful thanks to both of these world class lifetime educators!

**On June 1, 2023, we welcomed Mr. Tony Cornforth as OSSM's third president!** A northwest Oklahoma native, Professor Cornforth began his career with OSSM in 2002 as the first math professor at OSSM's Ardmore Regional Center, and he taught math at the residential campus in OKC from 2004 to 2007. In 2007, Professor Cornforth helped launch the Wayne Regional Center as its inaugural physics instructor and later took over both math and science teaching duties. During his 14 years at the Ardmore center, 287 students completed the program, improving their ACT scores and earning top scores on AP exams, and 17 of his students earned Oklahoma Academic All-State recognition. In 2021, Professor Cornforth returned to the residential campus as part of the math department faculty, and in January 2023, he was unanimously appointed by the Board of Trustees to be the third president of OSSM. President Cornforth holds bachelor's degrees in Mathematics and Mathematics Education from Southwestern Oklahoma State University, a master's degree in Mathematics from the University of Oklahoma, is certified in Educational Leadership, and is completing his doctoral coursework in Education at Southern Nazarene University.

## GRADUATES (1992-2023)

**“I attended OSSM to strive in my education. It was the hardest decision ever, but I have been surprised by my capabilities to learn and discover my passions in medical biology. The biggest takeaway from OSSM is my effective study habits and how much I have learned about myself.”**

*Annabelle B., OSSM '24 (Mingo Valley Christian School)*

## RESIDENTIAL

OSSM is a state funded, two-year **residential high school** for Oklahoma juniors and seniors with ability and interest in math and science. **Ranked No. 5 among more than 20,000 public high schools nationally** (Niche.com), OSSM challenges students far beyond the traditional high school model. Everything at OSSM supports students’ academics—from the school’s residential immersion model, college-level curriculum, and largely doctoral-level teaching faculty (75%) to required evening study halls staffed with faculty, peer support, and limited cell phones and personal internet. Students leap forward in their academic progress, with many OSSM graduates receiving numerous credits for their OSSM classes at their chosen institutions of higher learning.

## STATEWIDE

OSSM operates **Regional Centers** in Enid, Okmulgee, Poteau, Tahlequah and Stilwell, providing students with calculus, calculus-based physics, and other advanced courses taught by OSSM instructors in partnering Career Techs near their homes.

OSSM’s **Virtual Program** works with high schools across the state to allow students anywhere in Oklahoma to receive daily interactive instruction online in calculus, calculus-based physics, and other advanced STEM courses AND to receive full face-to-face labs brought to them regularly by our accomplished master-level OSSM instructor.

**“For rural students like myself, the Virtual Program perfectly balances the rigor of OSSM with the ability to engage in your everyday extracurriculars. The opportunities opened up by this program and their ease of access remain unparalleled for students across the state.”**

*Wyatt J., OSSM '23, Altus H.S.*

## SUMMER PROGRAMS

### One-day Middle School Math & Science Workshops

Sponsored by **Williams Companies** and the **Oklahoma Aeronautics Commission**

### The OSSM Summer Academies

Two separate week-long STEM camps for high school students (fee-based). Many thanks to **Marathon Oil** and **American Fidelity Foundation** for providing scholarships for students with financial need to attend the 2023 OSSM Summer Academies!

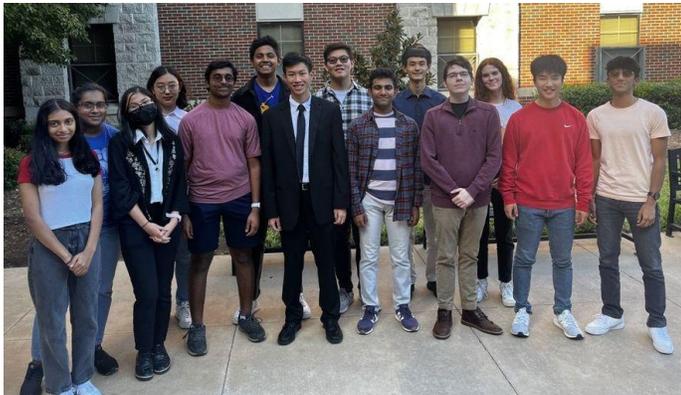

### Week-long Middle School Math & Science Teachers’ Institutes

Free week-long residential institutes providing high quality professional development—includes national & local experts on content knowledge, best teaching practices, field trips, peer networking, and more. Many thanks to our sponsors **The Sarkeys Foundation, Oklahoma Medical Research Foundation, Phillips 66, and Rob Miner.**

# OSSM BY THE NUMBERS

After winning the state championship in February, the OSSM team of Andrew Z. (Edmond North H.S.), Aaron P. (Edmond Santa Fe H.S.), Krish M. (Casady, OKC), and Billy Z. (MacArthur H.S., Lawton) won **3rd place in the National TEAM+S competition**—Testing for Engineering Aptitude in Mathematics + Science—held in Louisville, KY, in July 2023!

Charles L., OSSM '23 (Stillwater H.S.), made a perfect score (36/36) on the 2022-23 Oklahoma Math League (OKML) series of contests, which means he was a **1st place finisher** in the state of Oklahoma (there are six rounds throughout the year). *Congratulations, Charles!*

## Congratulations to 15 OSSM '23 National Merit semifinalists!

They are Jackson C. (Westmoore H.S.), Amanda D. (Plainview H.S.), Emmy H. (Norman North H.S.), AJ J. (Deer Creek H.S.), Janice K. (Stillwater H.S.), Charles L. (Stillwater H.S.), Damodar P. (Edmond Memorial H.S.), Sourish P. (Deer Creek H.S.), Sarvesh R. (Edmond North H.S.), Anoushka S. (Southmoore H.S.), Meena S. (Norman North H.S.), Jason W. (Walnut H.S., CA), Natalie W. (Duncan H.S.), Brian Y. (Stillwater H.S.), and Alexander Z. (Plainview H.S.). Selection is based on PSAT.

Krish M., OSSM '24 (Casady, OKC), and former classmate Krish P. went to D.C. to present their app, Smart Carpool. They met with House members and tech companies. Earlier, they were **1st in the Congressional App Challenge for 5th Dist. of OK, the most prestigious prize in student computer science.**

From 8/1/2022 through 7/31/2023, OSSM served **938** students and teachers from **47 of 77** Oklahoma counties!

# MENTORSHIP

During the 2022-2023 school year, many OSSM seniors worked with professional mentors in areas of their interest—from immunology, computer science, aerospace engineering, and nanoparticles to molecular biology, cancer research, neuroscience, data science, and everything in between. Research projects students were fortunate to work on, just to name a few, included:

- Galaxy Clusters: X-Ray Detection and Visual Confirmation
- Exoskeletons and the Socketless Socket at Martin Bionics
- RD3 and MYCN Gene Correlation in Neuroblastoma Samples
- Creating Unmanned Aircraft for Atmospheric and Radio Frequency Analysis
- CD38 and its Pathways: Implications for Cellular Signaling and Cancer Immunotherapy
- What Translating Motion Capture into Computer Models May Show
- Smooth Numbers Algorithm in Number Theory

**Many thanks to our mentors!**

Harold L., OSSM '23 (Moore H.S.), completed a mentorship with Michele Galizia, Ph.D. in the Department of Chemical, Biological, & Materials Engineering at OU. Below is a note from Dr. Galizia—Harold is now a freshman at OU majoring in chemical engineering and has continued his research in Dr. Galizia's lab.

**“I’m so proud [of Harold] and the progress he made... Harold has already published two papers in high impact factor journals, and now he is a freshman student in our program. I firmly believe this is also a great accomplishment for OSSM. I hope we can work together in the years to come to give our young Oklahomans wonderful opportunities to grow and, foremost, flourish.”**

**Michele Galizia, Associate Professor**  
*President’s Associates Presidential Professorship in Chemical Engineering  
School of Sustainable Chemical, Biological and Materials Engineering (SCBME)  
The University of Oklahoma Gallogly College of Engineering*

## COURSE OFFERINGS (OSSM RESIDENTIAL PROGRAM)

College Level courses taught by largely Ph.D. (75%) faculty. See more at <https://www.ossm.edu/academic-departments/>

### MATHEMATICS

Pre-Calculus I, II, III	Real Analysis
Calculus I, II	Special Advanced Problems
Multivariate Calculus	Topology
Differential Equations	Foundations of Mathematics
Number Theory	
Probability and Statistics	
Linear Algebra	

### BIOLOGY

Anatomy & Physiology	Endocrinology
Biochemistry	Microbiology
Molecular & Cellular Biology	Plant and Soil Science
Embryology	Intro to Neuroscience
Genetics	General Zoology

### COMPUTER SCIENCE

Intro to Computer Science	Computer Architecture & Assembly Programming
Object-Oriented Programming with Java	Special Topics in Computer Science
Data Structures I & II	Intro to Data Science & Data Science Seminar
Computer Networking	

### HUMANITIES

American Literature	Western Civilization	Special Topics in Humanities	Fine Arts
World Literature	East Asian History	Foreign Languages	
American History	Arab Civilization	Principles of English Composition	

### PHYSICS

General Physics	Special Topics in Theoretical Physics
Mechanics	Exploration Geosciences
Electricity and Magnetism	Oceanography
Astronomy	
Intro to Modern Physics	
Modern Physics II	
Thermal Physics Waves & Optics	

### ENGINEERING

Robotics Engineering	Complex Analysis (Math)
Electronic Circuits	Geoscience Seminar (Intro. to Petroleum Engr.)
Assembly Language	

### CHEMISTRY

General Chemistry I & II	Chemical Equilibrium
Organic Chemistry I & II	Chemistry Olympiad Prep/Directed Study
Biochemistry	

**“I chose OSSM because the education is so much more challenging than the one I could have received elsewhere.”**

*Natalie W., OSSM '23, Duncan H.S.*

## OSSM CLASS OF 2023 COLLEGE MATRICULATIONS

Carnegie Mellon University (1)	Georgetown University (1)	Texas A & M University-College Station (1)	University of Texas-Dallas (2)
Colby College (1)	Johns Hopkins University (1)	Trinity University (1)	University of Tulsa (2)
Columbia University (2)	Oklahoma State University (5)	University of California-Irvine (1)	Vanderbilt University (1)
Cornell University (1)	Rice University (1)	University of Central Oklahoma (1)	
Emory University (2)	Rose State College (1)	University of Missouri-Kansas City (1)	
Evangel University (1)	Rose-Hulman Institute of Technology (1)	University of Oklahoma (16)	

See more about OSSM academics, faculty, and programs at

[WWW.OSSM.EDU](http://WWW.OSSM.EDU)

Follow us on Facebook at [oklahomaschoolofscienceandmath](https://www.facebook.com/oklahomaschoolofscienceandmath)

## Cherie Herren, M.D.

**OSSM CLASS OF 1997** (Cordell H.S.)

*Child Neurologist, Oklahoma Children's Hospital, OU Health*

Dr. Herren earned her medical degree from the University of Oklahoma College of Medicine in Oklahoma City; she completed a residency in pediatrics at the OU College of Medicine and a residency in pediatric neurology from the University of Texas Southwestern in Dallas, Texas. She completed fellowships in pediatric epilepsy and pediatric neurophysiology from UT Southwestern as well. She is Board Certified in Psychiatry & Neurology and Pediatric Neurology.

Cherie knew from a young age she wanted to be a physician. She also knew her small school in rural Oklahoma didn't offer physics, calculus, or advanced biology—all of which would be required for her to achieve her goal.

Today, Dr. Herren is a pediatric neurologist and epileptologist (seizure specialist). She credits OSSM with helping her prepare for her career by teaching valuable study habits and work ethic, which helped her succeed in undergraduate and medical school.

**“As an epileptologist, I specialize in reading electroencephalograms (EEGs) and teaching how these studies are generated and how to read them. Thanks to Dr. Arne Troelstra [OSSM Physics Faculty 1990-98], I can do this with confidence.”**

## Caleb Lareau, Ph.D.

**OSSM CLASS OF 2011** (Oklahoma Bible Academy, Enid)

*Assistant Member, Program in Computational and Systems Biology, Memorial Sloan Kettering Cancer Center, New York, NY*

*Bachelor of Science, summa cum laude, Biochemistry and Mathematics 2015, University of Tulsa (Tulsa, OK)*

*Master of Arts, Biostatistics 2017, Harvard University (Cambridge, MA)*

*Doctor of Philosophy, Biological and Biomedical Sciences 2020, Harvard University (Cambridge, MA)*

*Postdoctoral Fellowship, Departments of Pathology and Genetics 2023, Stanford University (Palo Alto, CA)*

Dr. Lareau researches the molecular basis of cancer: how cells are replaced in the body, how this changes with disease, and how the body can fight back. He's also a scientific cofounder of Cartography Biosciences, a stealth startup developing precision immunotherapies for cancer. His laboratory focuses on how cells evolve within an individual's lifetime from molecular triggers, including somatic mutations and exposures to viruses, and how these changes impact the ability of the immune system to respond to cancers and infections. He has authored and co-authored many dozens of papers, invited commentaries, and book chapters and has several patents and more pending based on his research. In 2022, he was recognized in **Forbes 30 Under 30** in the Science Category.

The OSSM experience is not something that dries up once you leave, Lareau notes. On the cusp of what he considers his biggest scientific breakthrough to date, he had a really exciting result and approached a senior professor at Dana Farber Cancer Institute in Boston. He asked to consult with someone there on their complimentary data, and he was referred to Katie Maurer, M.D., Ph.D. who he realized as they talked was also an OSSM alum (2007) and also from Enid!

**“[Katie] had actually been involved in seeing some of the patients that were critical for some of the results I was seeing in my data... How serendipitous that you would have a fellow OSSM alum on the other coast be this other critical point of contact to help make a discovery happen.”**

## Chris Nusbaum, MBA

**OSSM CLASS OF 1996** (John Marshall H.S., OKC)

*Director of Software Development, Paycom*

*Bachelor of Computer Science, Oklahoma Christian University | MBA, University of Central Oklahoma*

Chris started developing software over 20 years ago for a metal building company, taught English in Japan for 2 ½ years, and started working as a software developer for Paycom in the summer of 2009. In 2013, he was promoted to Manager of Software Development and in September of 2022 promoted to Director of Software Development. Chris has been instrumental in the development of key payroll and time-keeping developments that have expanded Paycom's market from regional to national, and recently from national to multi-national.

**“OSSM taught me the meaning of hard work, grit, and perseverance to achieve my goals. A big part of that learning was due to the outstanding faculty from which I had the opportunity to learn.”**

## Mubeen Shakir, MD, MPP, MSc

**OSSM CLASS OF 2010** (*Casady School, OKC*)

*Internal Medicine Physician, OU Health*

*Associate Vice President of Clinical Innovation, OU Health*

*B.S. Biochemistry, University of Oklahoma, 2013 | M.Sc. Medical Anthropology, University of Oxford, 2014*

*M.P.P. Public Policy, University of Oxford, 2015 | M.D. Medicine, Harvard Medical School, 2019*

Dr. Shakir earned his medical degree from Harvard Medical School in Boston, MA where he graduated cum laude with special honors in Health Policy. He served as a commencement speaker at his 2019 Harvard Medical School graduation, and he completed an internal medicine residency at Massachusetts General Hospital in Boston, MA.

Prior to medical school, Dr. Shakir was awarded the prestigious **Rhodes Scholarship** through which he completed a Master of Public Policy and a Master of Science in Medical Anthropology at the University of Oxford in Oxford, England. Dr. Shakir is passionate about health policy and has advised on political campaigns as well as policy for the Massachusetts Department of Public Health.

**“OSSM has been the best academic decision I have made. I would not be here without it and the faculty who make it great.”**

## Storm Mata wins DoE Fellowship

**OSSM CLASS OF 2015** (*Sapulpa H.S.*)

*Civil and Environmental Engineering (CEE) Graduate Student, MIT*

Alumnus Storm Mata (2015) is a Civil and Environmental Engineering (CEE) graduate student at MIT (Ph.D. 2026). In June 2022, he was one of 33 students across the US to be awarded highly competitive and prestigious DoE Fellowships. Storm is pursuing his doctorate degree in environmental fluid mechanics with an emphasis in wind energy and atmospheric boundary layer physics. *Congratulations Storm!*

## E. L. and Thelma Gaylord Foundation makes highly impactful investment in OSSM Computer Science curriculum

**E.L. and Thelma Gaylord**  
FOUNDATION

The OSSM community wishes to express immense gratitude to the E.L. and Thelma Gaylord Foundation for its \$200,000 grant given at the end of 2022 to ensure OSSM can always attract and retain the very best computer science faculty in a highly competitive market environment. This wonderful gift, together with other generous gifts given over the past several years, brought the Computer Science Endowment at OSSM, now the **E.L. and Thelma Gaylord Computer Science Endowment**, to over \$400,000. The investment proceeds of this critical still-growing endowment helped OSSM hire OSSM Computer Science Professor Sean Jones, M.S. (OSSM '01) on a full-time basis, filling a position vacant since 2018.

**Many thanks to the E.L. and Thelma Gaylord Foundation for ensuring OSSM students will always have the very best instruction in the critical field of Computer Science!**

## Alumnus expanding OSSM Computer Science offerings as full-time professor

In January of this year, Sean Jones became a full-time professor of Computer Science. Professor Jones grew up in Osage County and graduated from OSSM in 2001. Upon graduation the U.S. Naval Academy, he was commissioned as an Ensign in the United States Navy. He graduated in 2005 with a bachelor's degree in computer science before attending the University of Oklahoma, graduating in 2007 with a master's degree in computer science with special areas of interest including Artificial Intelligence (AI) and Networking. After obtaining his master's, he attended Naval Nuclear Power Training School in Charleston, South Carolina.

In 2012, Professor Jones began work at NextThought, a technology company in Norman. In August 2015, following the retirement of Professor Charles Dillard, long-time computer science professor, Jones was asked to teach the Introduction to Computer Science course as OSSM conducted a search for a full-time computer science professor. Professor Jones continued teaching Intro to Computer Science, adding courses such as Data Structures I and II and Intro to Object Oriented Programming with Java until he joined the faculty full-time. He now plans to expand the computer science offerings further to include a course in Computer Networking being taught this fall, followed by courses in A.I. and a software engineering seminar in the spring.

Another goal currently in development is assembling a hardware lab providing facilities for students to have hands-on experiences with computer networking, A.I., and software development practices such as continuous integration.

# OSSM FOUNDATION FINANCIALS

January 1 to December 31, 2022

## REVENUE, GAINS AND OTHER SUPPORT

### CONTRIBUTIONS

(net of discounts and allowances)

	WITHOUT DONOR RESTRICTIONS	WITH DONOR RESTRICTIONS	TOTAL
Undesignated	\$ 125,638	\$	\$ 125,638
Restricted for specific purpose or time		440,703	440,703
Restricted in perpetual nature		289,502	289,502
Interest income (net of fees of \$56,249)	49,583	229,613	279,196
Net unrealized and realized gains (losses) on investments	(257,468)	(2,509,736)	(2,767,204)
Total revenue, gains, and other support	(82,247)	(1,549,918)	(1,632,165)
Net assets released from restrictions	496,063	(496,063)	
Total revenue, gains, and other support	413,816	(2,045,981)	(1,632,165)

### EXPENSES

#### PROGRAM EXPENSES

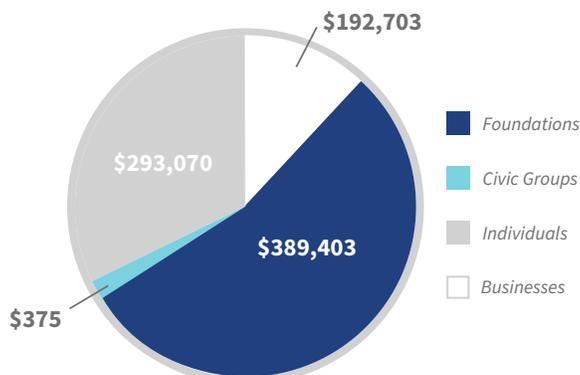

(contributions to OSSM)

Support of school programs	723,801		723,801
